MANY FATAL STORMS

Lives of Workmen Probably Lost
in a Gale at Milwaukee.

Death and Destruction in the Path of Southern Cyclones

Watchmen Called Out at Night
Protect Exhibits at Chicago.

MILWAUKEE, April 20.—Lake Michigan being swept by one of the worst easterly gales experienced in years. The sea is running very high and tugs are unable to venture out of the harbor. A small vessel ashore at the head of Juneau avenue.

The worst feature of the gale at this port is the probable loss of twenty lives by the washing away of the houses over the crib and the terminus of the new water works tunnel. No men are in sight and it is believed the

LATER, five or six men can be seen clinging to the machinery and timbers of the water-works crib. The water is sweeping over them. It is thought that the other men may be dead in the chamber below.

The life-saving crew has been unable to render assistance as yet.

LITTLE ROCK, Ark., April 20.—Sewer

The town of Boles, sixteen miles north of Dallas, Polk County, was almost swept off the map. Buildings and outhouses and fences were blown half a mile and shattered in fragments. Trees were uprooted and

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitor.

First the sky became overcast, then muffled sound was heard and finally

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitor.

First the sky became overcast, then a muzzling sound was heard and finally a greenish-colored cloud was seen rapidly approaching from the west. As it neared the wind sprang up and the people, until buildings and trees were unable to stand against the terrific pressure. The path of the cyclone was half a mile in width.

FAYETTEVILLE, Ark., April 20.—At noon

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitor.

First the sky became overcast, then a hissing sound was heard and finally a greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the town a strong wind sprang up, blowing against buildings and trees were unable to stand against the terrific pressure. The path of a cyclone was clearly visible.

FAYETTEVILLE, Ark., April 20.—At noon yesterday a terrific cyclone passed through Fayetteville just south of the place. Its path was about three hundred yards wide, swept everything uprooted, trees, tore down buildings.

Many homes were demolished and many families were in the storm last night with their lives in danger.

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visit.

When the sky became overcast, the warning sound was heard and finally a greenish-colored cloud was seen rapidly approaching from the southwest. At its base the wind sprang up and continued in force against buildings and trees were unable to resist against the force of the wind. The path of the cyclone was half a mile in width.

At STETEVILLE, Ark., April 26.—At noon a violent cyclone passed over the valley just south of this place. Its path was about three hundred yards wide. It was accompanied by a high wind, and fences and destroyed houses.

Many homes were demolished and many persons were injured. The only place of shelter. Of one family named Wright, consisting of eight persons, all are seriously injured. It is probable that all except one child will recover.

A number of others are reported injured and some to what extent cannot yet be determined.

CHICAGO, April 26.—Half-dressed guards

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitor.

The first sky became overcast, then raining sound was heard and finally a greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the town the wind increased in force until buildings and trees were unable to stand against the terrific pressure. The path of the cyclone could easily be traced.

FAYETTEVILLE, Ark., April 20.—At noon yesterday a terrific cyclone passed through Fayetteville and the places near by. It was about three hundred yards wide, swept everything uprooted trees, tore down houses and buildings.

Many homes were demolished and many families were in the storm last night without shelter. The families who were rescued, consisting of eight persons, all are serious, and it is probable that all except one child will recover.

A number of others are reported injured and it is not known to what extent cannot yet be determined.

CHICAGO, April 20.—Half-dressed guards were seen in the streets of Chicago last night. They struggled to the Manufacturers' building, where they were held.

It was a wild night at the park. For hours the rain had poured down on the roofs of the pavilions and the trees. The wind had shaken the heavy iron trusses and

It is known that seven persons were killed by eye-witnesses says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the storm.

First the sky became overcast, the warning sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until it was too strong to resist, and it fought against the terrific pressure. The path of the cyclone was half a mile in width.

At 12:15, on the night of April 4, at noon yesterday a terrific cyclone passed through the valley just south of this place. Its path was about eight persons, all are seriously injured, but it is probable that all except one child will recover.

Many of the officers are reported injured, but how many and to what extent cannot yet be determined.

At 12:30, on the night of April 20—Mail-dressed guards rushed from the service building at the World's Fair grounds about 11 o'clock last night to the service building at the Manufacturers Building, where their services were needed.

It was a wild night at the park. For hours the wind howled and the roofs of the buildings, or driven in sheets of rain, had shaken the heavy iron trusses as the wind whistled through the trees.

The wind had been high all day, but at about four before midnight it rose almost to a hurricane. The wind was with a force that sent it through every crack and crevice.

The men worked desperately under the trees, and the women were driven from the pavilion, and none of the exhibits were damaged.

[illegible][illegible][illegible]

blown in the roads. A number of houses were lost, but a correct report cannot be now obtained.

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitor.

The main sky became overcast, the warning sound was heard and finally a greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to stand against the terrific pressure. The path of the cyclone was half a mile in width.

At 11 o'clock on April 20.—At noon yesterday a terrific cyclone passed through the valley just south of this place. Its path was about 1/2 mile wide. It was so swift and swept everything, uprooted trees, tore down fences and destroyed houses.

Persons who were frightened and many families were in the storm last night without shelter. Of one family named Wright, composed of three children, one of whom is seriously injured, but it is probable that all except one child will recover.

A number of others are reported injured but how many and to what extent cannot yet be determined.

CHICAGO, April 20.—Hail-dressed guards rushed from the service building at night, and the guards about 11 o'clock last night. They thought that the service building, where their services were needed, was on fire. They rushed to the park. For hours the rain had poured down from the roof of the big buildings, or driven in sheets by the wind. The iron trusses as they fell struck their coverings.

The wind had been high all day, but since 11 o'clock it had become a terrific cyclone. The rain was driven with a force that sent it through every crack and crevice of the building. The men were under the personal supervision of Director-General Davis, and none of the exhibits were damaged. The wind was so strong that it was on the east side of the building, which was all affected.

The Director of Works Graham said it was the extraordinary wind pressure drove the water in at every crevice, the angle of the wind was so strong that it was on the water so that they were driven upward and between the panes of glass.

COLLAPSE IN THE SOUTHWEST

MISSOURI, KANSAS, and TEXAS Hailed Battered by Trees on the Track.

DENISON, Tex., April 20.—A destructive storm has just hit Ardmore, La. T., tearing down growing vegetation and crops from the ground. A cyclone struck Nancy Hollows, forty miles north of here, at midnight, tearing down several houses and injuring several persons, some probably fatally.

Telegraphic communication was destroyed. The Missouri, Kansas and

blown in the roads. A number of the trees were lost, but a correct report cannot be now obtained.

It is known that seven persons were killed.

An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the coming storm.

The first sky became overcast, and the mowing sound was heard and finally a greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to resist against the terrific pressure. The path of the cyclone was half a mile in width.

At 10:30 a. m., at Arc, Ark., April 29.—At one o'clock the wind struck the town and carried the valley just south of this place. Its path was from the north, hundreds yards wide, sweeping everything. The path of destruction and destroyed houses.

Many human beings were demolished and many families were killed. The night was very dark. One of our family named Wright, combed his hair, eight persons, all are serious injuries, but it is probable that all except one child will recover.

A number of others are reported injured to the hands and feet to such extent cannot be determined.

At Hildago, April 29.—Half-dressed guards from the service building caught a man from the World's Fair grounds about 11 o'clock last night. They struggled to the Manufacturers' building, where they were taken.

It was a wild night at the park. For hours the rain had poured down on the roofs of the buildings and the trees in the park had been shaken the heavy iron trusses as if struck by their coverings.

The wind blew all day, but at about four hours before midnight it rose almost to a hurricane. The rain was driven with a force that sent the trees flying in all directions.

The men worked desperately under the personal supervision of Director-General Graham, but the building was damaged, but it was a close call for some of them on the east side of the building, which was struck.

Assistant Director of Works Graham said it was the extraordinary wind pressure drove the trees down on the building and the immense curved roof deflecting the trees or was so that they were driven upward and broken the pane of glass.

CYCLOONES IN THE SOUTHWEST

Missouri, Kansas and Texas Railroad Blocked by Trees on the Track.

DENISON, Tex., April 29.—A destructive hail storm has just visited Ardmore, T. T., tearing down growing vegetation and crops from the ground. A cyclone struck Nancy Hollows, forty miles north of here, at midnight, tearing down several homes and injuring several persons, some probably fatally.

Telegraphic communication was destroyed between Denison, Kansas and Texas main line is blocked by trees on the track.

The storm cut a swath about 300 yards wide and laid the big timbers to the ground. It is reported that one man was killed by hailstones.

blown in the roads. A number of houses were blown down, but a correct report cannot be now obtained.

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people fled to some extent prepared for a visitor.

First the sky became overcast, then mowing sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the hills sprang up and continued in rotation until the wind shifted to a northwesterly against the terrific pressure. The path of a cyclone is a mile in width.

AT A TAYLORVILLE, Mo., April 20.—At 10 o'clock yesterday a terrific cyclone passed through the town, just south of this place. Its path was about three hundred yards wide and swept everything uprooted, trees, tore down houses and destroyed houses.

Many homes were destroyed and many families were in the storm last night without shelter. One family named Wright, consisting of eight persons, were seriously injured, but it is probable that all except one could recover.

A number of others are reported injured but how many and to what extent cannot be ascertained.

CHICAGO, April 20.—Hail-dressed guards rushed from the service building at 10 o'clock last night to the Manufacturers' Building, where their services were needed. The rain fell in sheets from the clouds and the rain had pelted down on the roofs of public buildings, or driven in sheets by the wind, and the iron trusses as it struck their coverings.

The wind had been high all day, but at 10 o'clock it changed to a terrific gale, and a cyclone. The rain was driven with a force that sent it through every crack and crevice of the building. The guards were without personal supervision of Director-General Davis, and none of the exhibits were damaged. The wind was from the southwest, and on the east side of the building, which was all affected.

The Director of Works Graham said it was the extraordinary wind pressure drove the material at every crevice, the angle of the material and the force of the wind or water, so that they were driven upward and between the panels of glass.

CYCLONES THE SOUTHWEST

Missouri, Kansas and Texas.

MISSOURI, Kansas and Texas.

DENISON, Tex., April 20.—A destructive hail storm has just visited Armstrong, La., tearing down growing vegetation and crops from the ground. A cyclone struck Nancy Hollows, forty miles north of here, at midnight, tearing down several homes and injuring several persons, some probably fatally.

Telegraphic communication was denuded in the region of Kansas and Texas main line is blocked by trees on the track.

The storm cut a swath about 300 yards wide and laid the big timbers to the ground. It is reported that one man was killed by hailstones.

MERIDIAN, Miss., April 20.—A cyclone struck Vicksburg, Miss., a small town on the Gulf and Ocean and Railroad, about twenty-five miles south of Vicksburg, 7 o'clock last night. Great damage was done to property, and it is reported that

[illegible]

blown in the roads. A number of houses were blown down, but a correct report cannot be now obtained.

It is known that seven persons were killed by eye-witnesses says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for its visit.

The sky became overcast, then mowing sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to stand against the terrific pressure. The path of destruction was a mile in width.

FAYETTEVILLE, Mo., April 20.—At 7 o'clock yesterday a terrific cyclone passed through Fayetteville just south of this place. Its path was about 300 yards wide. It swept everything uprooted, trees, tore down barns and houses.

Many homes were demolished and many families were in the storm last night without shelter. One Mrs. J. H. Wright, who is residing of eight persons, all well except injured, but it is probable that all except one could have recovered.

A number of others are reported injured, but how many and to what extent cannot be ascertained.

CHICAGO, April 20.—Half-dressed guards rushed from the service building at 11 o'clock last night. They struggled to the Manufacturers' Building, where their services were needed. At 12 o'clock the rain fell down on the roofs of the public buildings, or driven in sheets by the wind, so that the roof trusses were crushed under their coverings.

The wind had been high all day, but at 11 o'clock it changed to a violent hurricane. The rain was driven with a force that sent it through every crack and crevice in the city. The streets were flooded, and personal supervision of Director-General Davis, and none of the exhibits were damaged. The wind was especially destructive on the east side of the building, which was almost completely destroyed.

Assistant Director of Works Graham said it was the extraordinary wind pressure drove the exhibits very crooked, the angle of the immense crowd of spectators of the show was so great that they were driven upward and between the pangs of glass.

CYCLONES IN THE SOUTHWEST

Missouri, Kansas and Texas Railroad Blocked by Trees on the Track.

DENISON, Tex. April 20.—A destructive hail storm has just visited Ardmore, I. T., tearing down growing vegetation and crops from the ground. A cyclone struck Nancy Hollows, forty miles north of here, at midnight, tearing down several homes and injuring several persons, some probably fatally.

Telegraphic communication was destroyed. The Missouri, Kansas and Texas main line is blocked by trees on the track.

The storm cut a swath about 300 yards wide and laid the big timbers to the ground. It is reported that one man was killed by hailstones.

MEDIAN, Miss., April 20.—A cyclone struck Fatchib, Miss., a small town on the Queen and Crescent Railroad twenty-five miles south of Meridian, a 7 o'clock last night. Great damage was done to property, and it is reported that a negro died, besides loss.

New Market, on Mr. Krause's plantation near the mouth of the Mississippi River, and his inmates were roasted to death under the ruins.

A storm on Bernardo struck De Soto, La., town of 300 inhabitants, on the Mobile and Ohio road, fifteen miles east of New Orleans, at 6 o'clock last night. Most of the damage at De Soto is reported to be very great.

RUN OVER BY A HORSE CAR.

blown in the roads. A number of horses were killed, but a correct report cannot be now obtained.

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitation.

First the sky became overcast, then mowing sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to withstand the terrific pressure. The path of the cyclone was half a mile in width.

At 10 o'clock the storm struck—At 10 o'clock yesterday a terrific cyclone passed through the valley just south of this place. Its path was a hundred yards wide and swept everything, uprooted trees, tore down fences and destroyed houses.

Eight persons were killed and many families were in the storm last night without shelter. Of one family named Wright, composed of eight persons, all were seriously injured, but it is probable that all except one child will recover.

How many others are reported injured but how many and to what extent cannot yet be determined.

At 11 o'clock—At 11 o'clock yesterday a terrific cyclone struck the town, rushing from the service building at the World's Fair grounds about 11 o'clock last night, and passing through the service building, where their services were needed.

It was a wild night at the park. For hours the wind had been howling in the streets, blowing down buildings, or driven in sheets by the wind had shaken the heavy iron trusses as they stood in the streets.

The wind had been high all day, but at about four o'clock it rose almost to a hurricane. The wind was so strong that it sent it through every crack and crevice.

The men worked desperately under the trees, and many of the exhibits were damaged, but it was a close call for some of them.

Struck at 11 o'clock—The building, which was all affected.

Assistant Director of Works Graham said it was a terrible storm. The pressure drove the water in at every crevice, the angle of the immense curved roof deflecting the sheets of water and driving up the roof and between the panels of glass.

CYCLONES IN THE SOUTHWEST

Missouri, Kansas and Texas Have Road Blocked by Trees on the Track.

DENISON, Tex., April 20.—A destructive hail storm has just visited Ardmore, I. T., tearing down growing vegetation and crops from the ground. A cyclone struck Ardmore, twenty miles north of here, at midnight, tearing down several houses and injuring several persons, some probably fatally.

Telegraphic communication was destroyed. The Missouri, Kansas and Texas main line is blocked by trees on the track.

The storm cut a swath about 300 yards wide and laid the big timbers to the ground. It is reported that one man was killed by hailstones.

MERIDIAN, Miss., April 20.—A cyclone struck Fachuts, Miss., a small town on the Queen and Crescent Railroad, twenty-six miles south of Meridian, at 7 o'clock last night. Great damage was done to the crops and many houses. Several lives have been lost.

New parent, on Dr. Kruse's plantation a few miles north of the town, was burned and his inmates were roasted to death under the rains.

At 7 o'clock a tornado struck De Soto, a town of 300 inhabitants, on the Mobile and Ohio road, fifteen miles east of Meridian. The storm was so violent that the damage at De Soto is reported to be very great.

RUN OVER BY A HORSE CAR

William Arnold's Right Leg Crushed and Mangled.

William Arnold, aged thirty-three years, was run over by a horse and horse car while crossing Fourth avenue at Fourteenth street at 3:30 this morning.

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for the visitor.

The first sky became overcast, then mizzling sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to stand against the terrific pressure. The path of the cyclone was made in a matter of minutes.

FAYETTEVILLE, Mo., April 20.—At yesterday a terrific cyclone passed through the town, doing considerable damage. It was about three hundred yards wide and swept everything uprooted, trees, tore down buildings and houses.

Many homes were demolished and many families were in the storm last night without shelter. The loss of life is not known, consisting of eight persons, all are injured, but it is probable that all except one are seriously hurt.

A number of others are reported injured, but how many and to what extent cannot be ascertained.

CHICAGO, April 20.—Half-dressed guards rushed from the service building at midnight last night, about 11 o'clock last night. They struggled to the Manufacturers Building, where their services were needed. The rain had pelted down on the roofs of the tall buildings, or driven in sheets by the wind, and the men were unable to traverse and struck their coverings.

The wind had been high all day, but at midnight it came almost to a hurricane. The rain was driven with a force that sent it through every crack and crevice of the building. The men were under the personal supervision of Director-General Davis, and the exhibits were damaged, but it was not so serious as it appeared on the east side of the building, which was a very serious case.

Assistant Director of Works Graham said it was the extraordinary wind pressure drove the rain into the building at an angle of 45 degrees, the immense curved wind deflecting the water so that they were driven upward and between the panes of glass.

CYCLONES IN THE SOUTHWEST

Missouri, Kansas and Texas Railroad Battered by Trees on the Track.

DENISON, Tex., April 20.—A destructive hail storm has just visited Ardmore, I. T., tearing down growing vegetation and crops from the ground. A cyclone struck Nancy Hollows, forty miles north of here, at midnight, tearing down several houses and injuring several persons.

Telegraphic communication was destroyed. The Missouri, Kansas and Texas main line is blocked by trees on the track.

The storm cut a swath about 300 yards wide and laid the big timbers to the ground. It is reported that one man was killed and several hurt.

MERIDIAN, Miss., April 20.—A cyclone struck Pachuta, Miss., a small town on the Queen and Crescent Railroad twenty-six miles south of Meridian, at 7 o'clock last night. Great damage was done to the town. It is reported that several lives have been lost.

New Barnett, on Dr. Kruse's plantation a few miles north of Meridian, was burned and its inmates were roasted to death under the rails.

The San Fernando struck De Soto, a town of 300 inhabitants, on the Mobile and Ohio road, fifteen miles east of Meridian, at 11 o'clock last night. The extent of the damage at De Soto is reported to be very great.

RUN OVER BY A HORSE CAR

William Arnold's Right Leg Crushed and Mangled.

William Arnold, aged thirty-three years, was run over by a Fourth avenue horse car while crossing Fourth avenue at Fourteenth street at 8:30 this morning.

He was taken to the New York Hospital, where his right leg was found to be badly crushed and mangled.

He is now in the Maternity House, Twenty-sixth street and Fourth avenue.

Death expected.

blown in the roads. A number of houses were blown down, but a correct report cannot be now obtained.

It is known that seven persons were killed. An eye-witness says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people fled to some extent prepared for the visitation.

First the sky became overcast, then mowing sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to stand against the terrific pressure. The path of the cyclone was half a mile in width.

At 10 o'clock, April 9.—At about 10 o'clock yesterday a terrific cyclone passed through the valley just south of this place. It was so violent as to blow down many trees, sweep everything uprooted trees, tore down fences and destroyed houses.

The storm did considerable damage to families were in the storm last night without shelter. Of one family named Wright, composed of eight persons, all are seriously injured, but it is probable that all except one child will recover.

Many others are reported injured, but how many and to what extent cannot yet be determined.

April 10, April 20.—Hail-dressed guards rushed from the service building at the World's fair grounds about 11 o'clock last night. They had been ordered to the Manufacturers' Building, where their services were needed.

It was a wild night in the park. For hours there was a heavy hail on the roofs of the big buildings, or driven in sheets by the wind which shaken the heavy iron trusses as if they were made of lead.

The wind had been high all day, but after midnight it rose almost to a hurricane. The men who were sent out that night to guard every crack and crevice of the main works worked desperately under the hail, but could do little to save the exhibits. Many of the exhibits were damaged, but it was a close call for some of them.

At 11 o'clock, April 20.—A cyclone, which was a severe storm, struck the city. It was the extraordinary wind pressure drove the water in at every crevice, the angle of the wind curved round deflecting the sheet of water so that the buildings were driven upon and between the panes of glass.

CYCLONES IN THE SOUTHWEST

Missouri, Kansas and Texas Railroad Blocked by Trees on the Track.

DENISON, Tex., April 20.—A destructive hail storm has just visited Ardmore, Okla., tearing down growing vegetation and leveling the ground. A cyclone struck Nancy Hollow, forty miles north of here, at midnight, tearing down several homes and injuring several persons, some probably fatally.

Telegraphic communication was destroyed. The Missouri, Kansas and Texas main line is blocked by trees off the track.

A storm cut a swath about 300 yards wide and laid the big timbers to the ground. It is reported that one man was killed by hailstones.

MERIDIAN, Miss., April 20.—A cyclone struck Pachuta, Miss., a small town on the Queen and Crescent Railroad twenty-six miles south of Meridian, at 7 o'clock last evening. Much damage was done to property, and it is reported that several lives have been lost.

The storm struck the plantation negro cabin overturned by the storm was burned and its inmates were roasted to death.

The same tornado struck De Boto, a town of 50 inhabitants, on the Mobile and Gulf coast, about 10 miles from Pachuta, ten minutes later. The extent of the damage at De Boto is reported to be very great.

RUN OVER BY A HORSE CAR.

William Arnold's Right Leg Crushed and Mangled.

William Arnold, aged thirty-three years, was run over by a Fourth avenue horse car while crossing Fourth avenue at Fourteenth street at 8:30 this morning.

He was taken to the New York Hospital, where his right leg was found to be badly crushed and mangled.

He lives at the Pitman House, Twenty-sixth street and Fourth avenue.

One Death from Small-Pox.

The bureau of contagious diseases reports one death from small-pox this morning, that of Annie Brenner, fourteen months, of 325 West Fourth street, who was taken to North Broer Island April 10.

IT is known that seven persons were killed by eye-witnesses says that just before the wind struck the town strange atmospheric phenomena were noticed, and the people were to some extent prepared for a visitor.

First the sky became overcast, then mowing sound was heard and finally greenish-colored cloud was seen rapidly approaching from the southwest. As it neared the wind sprang up and continued in force until buildings and trees were unable to stand against the terrific pressure. The path of the cyclone was clearly visible as it passed.

FAYETTEVILLE, Ark., April 20.—At noon yesterday a terrific cyclone passed through Fayetteville and destroyed many houses. It was about three hundred yards wide, swept everything uprooted trees, tore down fences and destroyed houses.

Many homes were demolished and many families were in the storm last night without shelter. One family consisting of five persons, including eight persons, all are seriously injured, but it is probable that all except one will recover.

A number of others are reported injured but how many and to what extent cannot yet be determined.

CHICAGO, April 20.—Half-dressed guards rushed into the service building at the World's fair grounds about 1 o'clock last night. They struggled to the main entrance where they found no services were needed. It was midnight at the park. For hours the rain had pelted down on the roofs of the tents and, driving in sheets by the wind, had shaken the heavy iron trusses so as to strike their coverings.

The wind turned high all day, but an hour before midnight it rose almost to a hurricane. The rain was driven with a force which would have blown away the roof of the tent.

The men worked desperately under the personal supervision of Director-General Hays to get the exhibits well covered before dawn, but it was a close call for some of them on the east side of the building, which was nearly blown away.

Assistant Director of Works Graham said it was extraordinary wind pressure drove the roof off the exhibits. The exhibits were the immense curved roof deflecting the sheet of water so that they were driven upward and between the panes of glass.

CYCLONES IN THE SOUTHWEST

Missouri, Kansas and Texas Railroad Battered by Trees on the Track.

DENISON, Tex., April 20.—A destructive hail storm has just visited Ardmore, Okla., tearing down growing vegetation and crops from the ground. A cyclone struck Nancy Hollows, forty miles north of Denison, blowing down several general houses and injuring several persons, some probably fatally.

Telegraphic communication was destroyed. The Missouri, Kansas and Texas main line is blocked by trees on the track.

The storm cut a swath about 300 yards wide and left the big timbers to the ground. It is reported that one man was killed by hailstones.

MERIDIAN, Miss., April 20.—A cyclone struck Pachuca, Mrs., a small town twenty-six miles south of Meridian, on the Queen and Crescent Railroad, doing considerable damage to property, and it is reported that several lives have been lost.

The storm blew the King's plantation negro cabin overturned by the storm was buried and its inmates were roasted to death by the flames.

The same tornado struck De Soto, a town of 300 inhabitants, on the Mobile and Ohio road, about six miles west of Pachuca, ten minutes later. The extent of the damage at De Soto is reported to be very great.

RUN OVER BY A HORSE CAR.

William Arnold's Right Leg Crushed and Mangled.

William Arnold, aged thirty-three years, was run over by a Fourth avenue horse car while crossing Fourth avenue at Fourteenth street at 8:30 this morning.

He was taken to the New York Hospital, where his right leg was found to be badly crushed and mangled.

He lives at the Putnam House, Twenty-sixth street and Fourth avenue.

One Death From Small-Pox.

The Bureau of Contagious Diseases reported one death from small-pox this morning, that of Annie Brenner, fourteen months of age, who died at her home, No. 16 Lake street, North Brimley island April 19.
